COMMENTARY

NATURE OF BUSINESS

African Rainbow Capital Investments Limited (ARC Investments/
Company/ARCI) listed on the Johannesburg Stock Exchange
Limited (JSE) on 7 September 2017 and reports its maiden
provisional results for the year ended 30 June 2018. It is 51.7%
owned by African Rainbow Capital Proprietary Limited (ARC)
which in turn is 100% owned by Ubuntu-Botho Investments
Proprietary Limited (UBI).

The Company was incorporated in the Republic of Mauritius on
30 June 2017 as a private company limited by shares. The Company
holds a Category One Global Business License under the Mauritian
Financial Services Act, 2007 and is regulated by the Mauritian
Financial Services Commission.

The registered office and principal place of business of the
Company is located at Level 3, Alexander House, 35 Cybercity,
Ebène 72201, Mauritius. The principal activities of the Company
are that of an investment holding company whereby it offers
shareholders long-term capital appreciation by indirectly investing
in a diversified portfolio of listed and unlisted investments.

ARC made various investments since 2015 and sold these
investments to ARC Investments as part of the listing process. ARC
Investments participates in the underlying investments through its
Limited Partnership interest of 99.95% in the ARC Fund Partnership
(the ARC Fund), which is South African based.

Full details of the acquisitions and structure of the group were
disclosed in the Pre-Listing Statement issued on 28 August 2017
and published on the Company's website, www.arci.mu.

STRATEGY

The main purpose for the establishment of ARC Investments and
the Listing was to:

- create a broad-based Black-controlled capital raising and investment vehicle of significant scale with a diversified indirectly held portfolio of investments;
- enable public market investors to invest in ARC Investments and obtain an indirect exposure to a diversified pool of listed and unlisted Broad-Based Black Economic Empowerment (B-BBEE) assets through a listed investment vehicle; and
- enable ARC Investments to access capital markets, if required, to fund future expansion.

The most significant benefit in this regard is access to high quality listed and unlisted companies which ARC facilitates. This allows ARC Investments' shareholders access to a diverse portfolio of investments, some of which would otherwise not be available to normal investors on the JSE. In addition, investments are acquired at an appropriate B-BBEE discount where the investment carries a B-BBEE lock-in for a contractually agreed period of time. These factors offer a very attractive proposition to investors.

The UBI group endorses B-BBEE as a suitable mechanism for the redistribution of wealth and resources to the poor and marginalised communities in South Africa. UBI group seeks to utilise its empowerment credentials, its financial strength, its strong and well experienced leadership team and its strong brand to achieve superior capital appreciation for investors in ARC Investments.

INVESTMENT STRATEGY

ARC Investments does not conduct any material trading activity as its main objective is to hold the investment in the ARC Fund. By investing in a broad range of sectors and through a variety of listed and unlisted entities, the ARC Fund generally seeks to gain exposure to growth and early-maturity stage businesses in which management teams are appropriately incentivised. The ARC Fund generally seeks to acquire significant minority equity interests in established and start-up businesses that meet one or more of the following criteria:

- Experienced, qualified and capable management.
- A demonstrable track record.
- Strong cash flow generation.
- Solid growth prospects.
- Established market position.
- The opportunity to consolidate their respective markets and/or existing businesses within the ARC Fund portfolio.
- Commercial prospects which can be enhanced by having strong B-BBEE credentials.

Where the ARC Fund holds majority or significant minority interests in portfolio companies, the ARC Fund, where appropriate, seeks to provide broad strategic guidance to such companies. This is generally provided through participation on their Board of Directors. The ARC Fund has the flexibility to participate in opportunistic investments as and when they arise and seeks to focus on transactions in South Africa and other select countries in Africa but may also invest in Portfolio Companies with interests and/or operations elsewhere in the world. The ARC Fund does not have a target size and may be geared, as appropriate, to meet its investment strategy.

ARC Investments' medium- to long-term objective is to grow its Intrinsic Net Asset Value (INAV) by at least 16% per annum. Each investment opportunity is expected to exceed this minimum risk adjusted return hurdle on a standalone basis (i.e. without considering potential synergistical benefits that can be derived from being part of a diversified portfolio). The return threshold applicable to start-ups may be significantly higher than the 16% per annum hurdle, reflecting the higher risks attaching to such ventures relative to established businesses.

Acquisitions made post listing have been concluded in the ARC Fund and African Rainbow Capital Financial Services Holdings Proprietary Limited (ARC FinHoldCo) in which the ARC Fund holds a 49.9% interest.

ARC Investments has a single investment in the ARC Fund in its capacity as a Limited Partner. The underlying investments of the ARC Fund are managed in the ARC Fund by the fund manager, UBI General Partner Proprietary Limited (the General Partner).

INVESTMENT PORTFOLIO

Per the Segment Information on pages 20 - 27, on an Intrinsic Portfolio Value (IPV) basis the initial underlying Investment Portfolio in the Company through its investment in the ARC Fund comprised of:

- 100% of interests in the non-financial services Portfolio Companies (within the Diversified Investments segment); and

- 49.9% of interests in the financial services Portfolio Companies of ARC FinHoldCo (within the Diversified Financial Services segment).

For investments in non-financial services businesses within the Diversified Investments portfolio, the approach is to invest in good standalone businesses and to back a strong and effective management team to deliver on the required return on investment for the business.

For investments in the Diversified Financial Services portfolio, the ARC Fund seeks to drive synergies among portfolio companies. This allows the ARC Fund to build a holistic financial services business.

OPERATING ENVIRONMENT

The spectrum of businesses in the ARC Fund is diverse, which is strategically important for the overall performance of the ARC Fund. Since most of the businesses in the ARC Fund are exposed to the South African economy, the low economic growth in South Africa, which has been estimated as between less than 1.0% to about 1.5% across the various industries in the period under review, has negatively impacted the trading environments of many of our portfolio businesses with a consequential knock-on effect on our reported performance. It is expected that the performance of these investments will improve over the short- to medium-term.

OVERVIEW OF RESULTS

Intrinsic net asset value (INAV)

For the period since listing INAV increased from R8 734 million to R9 527 million. The ordinary shares in issue remained constant throughout the period at 1 032 million. The INAV per ordinary share of R9.23 on 30 June 2018 represents a 9.1% growth in INAV per share for the period. On an annualised basis the growth in INAV per share is 11.2%.

The diluted INAV per share after fees for the period increased by 7.8% from R8.46 at listing to R9.12 at 30 June 2018 after performance participation. This represents an annualised growth of 9.6% in diluted INAV per share.

There were no reconciling items between earnings per share and headline earnings per share and both measures thus increased to 81 cents at 30 June 2018 from (11 165 769 cents) at 30 June 2017. NAV per share increased to 931 cents at 30 June 2018 from (11 165 769 cents) at 30 June 2017.

Intrinsic Portfolio Value (IPV)

The IPV amounted to R4 473 million at listing on 7 September 2017. IPV increased to R8 147 million at 30 June 2018 as a result of acquisitions, fair value adjustments and income earned. During the period under review, the ARC Fund made net cash acquisitions of R2 735 million while Intrinsic Portfolio Value (IPV) increased by R708 million being, net fair value adjustments and interest on loans to Portfolio Companies.

Cash balances

ARC Investments raised R4 300 million during the listing process on 7 September 2017. The ARC Fund utilised R2 735 million of the contributed cash capital by the Company of R4 224 million during the period under review to fund its acquisitions. Cash balances increased by a net amount R246 million due to interest and dividends earned, less expenses and fees paid, resulting in a cash balance of R1 577 million at 30 June 2018.

Fees

The ARC Fund incurred R94 million in fees charged by the General Partner since listing comprising of portfolio management fees (R88 million) and cash management fees (R6 million).

Performance participation

The ARC Fund achieved an annualised IPV growth in excess of the 10% hurdle rate for the period under review which resulted in a Performance Participation expense of R115 million in the Company. The Performance Participation results in the conversion of 12,6 million C shares into ordinary shares.

PORTFOLIO REVIEW

Below is a summarised review of the portfolio performance. For detailed commentary on the portfolio, please refer to Annexure I - Detailed Intrinsic Portfolio Value by Reporting Segment on pages 20 to 27.

Telecommunications (28.0% of IPV)

The ARC Fund investment in Rain (26.3% of IPV) increased from R656 million at listing to R2 144 million at 30 June 2018. The increase is mainly attributable to further investment of R1 122 million and revaluations of R366 million.

Mining, Construction and Energy (15.8% of IPV)

The IPV of the investments in Mining, Construction and Energy increased from R1 121 million at listing to R1 285 million at 30 June 2018. The increase is mainly attributable to an investment in the Last Mile Fund of R132 million.

Business Process Outsourcing (15.2% of IPV)

The IPV of the investments in Business Process Outsourcing increased from R867 million at listing to R1 245 million at 30 June 2018. The increase is mainly attributable to an investment in Bluespec of R509 million and a decrease in the fair value of the

investment in EOH of R236 million.

Agriculture (10.8% of IPV)

The IPV of the investments in Agriculture increased from R432 million at listing to R877 million at 30 June 2018. The increase is mainly attributable to:

- investments made in Subtropico and RSA totalling R184 million; and
- revaluation of the investment in BKB by R196 million to the agreed contract sale price to Acorn Agri & Foods of R416 million.

Property (6.4% of IPV)

The IPV of the investments in Property increased from R314 million at listing to R523 million at 30 June 2018. The increase is mainly attributable to the revaluation of ARC Real Estate of R90 million; Majik of R57 million and Val de Vie of R22 million.

Other (4.6% of IPV)

The Other investments consist mainly of a 51% equity interest in Pledge Capital acquired for R315 million during the period under review.

Diversified Financial Services (19.2% of IPV)

The IPV of Diversified Financial Services increased from R967 million at listing to R1 567 million at 30 June 2018. The increase is mainly attributable to acquisitions of R533 million of which the majority consists of an investment in TymeDigital of R158 million and increases in the shareholding in Alexander Forbes (R266 million) and Afrocentric (R43 million).

LEADERSHIP AND GOVERNANCE

ARC Investments

The Company is managed and controlled in Mauritius by an experienced, multinational and majority independent Board of Directors (the Board) that has final oversight and responsibility in respect of ARC Investments' business, strategy and key policies. This includes the investment in the ARC Fund.

ARC Investments is a Limited Partner in the ARC Fund, an en commandite partnership established in South Africa. It thus plays no role in the management or investment decisions of the ARC Fund. The Board consists of five non-executive directors, four of whom are independent. There are no executive directors on the Board of ARC Investments. As an investment holding company, ARC Investments will not appoint a Chief Executive Officer. Karen Bodenstein is the Chief Financial Officer of ARC Investments but not a director. Bridget Radebe is the Chief Financial Officer of Ubuntu-Botho Investments Proprietary Limited (UBI) and a member of the Investment Advisory Committee of the General Partner.

Name (age)	Nationality	Function	Amount (USD)
Mark Cyril Oliver (49)(1)	British	Independent non-executive director (Chairperson)	20 000
Deans Tommy Lo Seen Chong (58)(1)	Mauritian	Independent non-executive director	7 500
Renosi Mokate (60)	South African	Independent non-executive director	20 000
Clive Msipha (36)	Zimbabwean	Independent non-executive director (Chairperson of the Audit and Risk Committee)	20 000
Bridget Ntombenhle Radebe (38)	South African	Non-executive director	-

The amounts above are the directors' fees paid to the directors for the current financial year.

During the year under review, Sipho Nkosi resigned as a director and was replaced by Renosi Mokate as an independent non-executive director on the Board of ARC Investments effective 23 November 2017.

All the investment decisions of the ARC Fund are taken by the General Partner through its Investment Committee or, subject to the terms of any delegations in place, its Investment Advisory Committee. The ARC Fund's relationship with the General Partner is governed through a partnership agreement. The Company's Investment Guidelines have been adopted by the General Partner's Investment Committee in its charter. This ensures conformance therewith in all investment decisions made in the ARC Fund by the General Partner. This includes governance oversight to ensure that the Investment in the ARC Fund adheres to the Company's Investment Guidelines. The General Partner has, in turn, entered into the Investment Services Agreement with ARC. In terms of this agreement, ARC assists the General Partner to source investment opportunities for the ARC Fund and provides certain administrative and back office support to the General Partner.

UBI General Partner

The board of directors of the General Partner is responsible for the general investment decisions and reviews of the ARC Fund and management of the pipeline and liquidity of the ARC Fund. It will provide representation on the Boards of Directors of Portfolio Companies (where appropriate), prepare valuation reports to ARC Investments and provide general feedback to ARC Investments on relevant matters relating to the ARC Fund.

The General Partner board members are:

Name	Designation(#)
------	----------------

Patrice Tlhopane Motsepe (Chairman)	Non-executive director
BA (Legal), LLB, DCom (Honoris Causa)	
Alexander Komape Maditsi	Non-executive director

BASIS OF PREPARATION

Statement of compliance

The provisional reviewed condensed financial statements are prepared in accordance with the requirements of the JSE Limited Listings Requirements for provisional condensed financial statements and the requirements of the Mauritian Companies Act, 2001 in so far as applicable to a Category One Global Business Licensed company under the Mauritian Financial Services Act, 2007 which is regulated by the Mauritian Financial Services Commission.

The Listings Requirements require provisional reviewed condensed financial statements to be prepared in accordance with the framework concepts, the measurement and recognition requirements of International Financial Reporting Standards (IFRS), the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Pronouncements as issued by the Financial Reporting Standards Council and to also, as a minimum, contain the information required by IAS 34 "Interim Financial Reporting". The accounting policies applied in the preparation of the condensed financial statements are in terms of IFRS.

STATEMENT OF RESPONSIBILITY

The directors take full responsibility for the preparation of these provisional reviewed condensed financial statements.

These provisional reviewed condensed financial statements were compiled under the supervision of the Chief Financial Officer,

Ms Karen Bodenstein, BCompt.

LEVEL OF ASSURANCE

These provisional reviewed condensed financial statements have been reviewed by the independent external auditors of the Company, PricewaterhouseCoopers Inc. and their unmodified review report is available for inspection at the Company's registered office.

The review was performed in accordance with ISRE 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity.

APPROVAL

The provisional reviewed condensed financial statements for the year ended 30 June 2018 were approved by the Board of Directors of the Company on 12 September 2018 in Mauritius.

Mark Cyril Olivier	Clive Msipha	Karen Bodenstein
Chairman of the Board	Chairman of the Audit and Risk Committee	Chief Financial Officer

ACCOUNTING POLICIES
for the year ended 30 June 2018

1. DEFINITIONS

The following definitions are key to the understanding of the Company's condensed financial statements:

- 1.1 IFRS Portfolio Value
Investments in the ARC Fund are reported in compliance with IFRS.
- 1.2 Intrinsic Portfolio Value (IPV)
The Intrinsic Portfolio Value is determined by the directors at every reporting period. The Intrinsic Portfolio Value is the IFRS Portfolio Value adjusted for non-IFRS measures as set out in note 4.3. The significant non-IFRS measurement differences comprise:
 - valuing underlying listed investments on a 30-day volume weighted average price (VWAP) basis (compared to closing spot price), net after taxation; and
 - valuing underlying listed investments after recognising B-BBEE discounts on a 30-day VWAP basis (compared to closing spot price), net after taxation.
- 1.3 Intrinsic Net Asset Value (INAV)
Intrinsic Portfolio Value of ARC Investments plus cash and other net assets.
- 1.4 NAV
The net asset value of ARC Investments as reported on the statement of financial position.

2. BASIS OF PREPARATION

- 2.1 Statement of compliance
The provisional reviewed condensed financial statements are prepared in accordance with the requirements of the JSE Limited Listings Requirements for provisional condensed financial statements and the requirements of the Mauritian Companies Act, 2001 in so far as applicable to a Category One Global Business Licensed company under the Mauritian Financial Services Act, 2007 which is regulated by the Mauritian Financial Services Commission.

The Listings Requirements require provisional reviewed condensed financial statements to be prepared in accordance with the framework concepts, the measurement and recognition requirements of International Financial Reporting Standards (IFRS), the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Pronouncements as issued by the Financial Reporting Standards Council and to also, as a minimum, contain the information required by IAS 34 "Interim Financial Reporting". The accounting policies applied in the preparation of the condensed financial statements are in terms of IFRS.

- 2.2 Functional currency and presentation currency
The Company's provisional reviewed condensed financial statements are presented in South African Rand (Rand), which is the Company's functional and presentation currency. All financial information presented in Rand has been rounded to the nearest million (R million) to one decimal place except for when otherwise indicated.

All other accounting policies are consistent with IFRS, inter alia, financial instruments; deferred taxation; taxation; Performance Participation and cash and cash equivalents where IFRS offers no accounting policy choice.
- 2.3 Basis of measurement
The financial results have been prepared on the historical-cost basis, except for the measurement of financial instruments at fair value.

The going-concern basis has been used in preparing the provisional reviewed condensed financial statements as the directors have a reasonable expectation that the Company will continue as a going concern for the foreseeable future.

3. KEY AREAS OF JUDGEMENT

- 3.1 Fair value measurement of the investment in the ARC Fund
The basis of valuation of the investment in the ARC Fund is dependent on the basis of valuation of all investments in the ARC Fund Portfolio. The basis of valuation of all investments in the ARC Fund Portfolio and consequently the investment at fair value through profit or loss (FVTPL), is fair value. Fair value is determined at the end of each quarter. All investments are valued in accordance with the valuation policy outlined below.

The sum of the individual instruments plus the cash and net assets in the ARC Fund make up the investment in the ARC

Fund. The valuation of the individual assets is in line with IFRS 13, therefore the sum of these represents the IFRS 13 fair value of the investment in the ARC Fund.

The General Partner values the investment portfolio in accordance with its valuation policy. The valuation policy considers the International Private Equity and Venture Capital Valuation Guidelines (IPEV Guidelines) and is consistent with the below detailed valuation approach, which will be consistent year on year except where there have been changes in circumstances in relation to an investment, and therefore the impact of such change would be disclosed.

3.1.1 Basis of valuation and approach

The fair value approach of the investments in the ARC Fund was determined as at the measurement date in accordance with the principles of IFRS 13, Fair Value Measurement. Fair value is defined as the price that would be received for an asset in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that a hypothetical transaction to sell an asset takes place in the principal market or in its absence, the most advantageous market for the asset.

For listed investments which are suitably liquid investments, the available market prices (calculated at spot on reporting date) will be the basis for the measurement of the IFRS Portfolio Value for identical instruments.

For unlisted investments, the primary valuation methodologies applied are the income approach (IA) and discounted cash flow (DCF), compared against a market approach (MA), where appropriate.

The General Partner uses its judgement to select the valuation technique most appropriate for an investment. The use of multiple valuation approaches on an investment is encouraged. On a specific investment, a single valuation technique or approach may be appropriate (e.g. when valuing an asset using quoted prices in an active market for identical assets). If multiple valuation techniques or approaches are used to measure fair value, the results of the various valuation methods are evaluated considering the reasonableness of the range of values indicated by those results. A fair value measurement is the point within that range that is most representative of fair value in the circumstances.

In determining the fair value of an investment, the General Partner uses its judgement. This includes consideration of those specific terms of the investment which may impact its fair value. In this regard, the General Partner would consider the economic substance of the investment, which may take precedence over the strict legal form. The General Partner would take the results of each of the valuation methods applied into account in concluding the final value of an investment.

Foreign investments are those considered to be in jurisdictions outside of South Africa. These are valued in the local currency of the country of investment and translated to Rand at the spot rate at the valuation date.

Lack of control/minority interest: To the extent that an investment is a minority interest and is not able to be easily realised, not easily able to be realised, an appropriate minority discount would be considered. However, to the extent that the ARC Fund has certain rights in respect of an investment (such as minority protections or Board representations) these rights would be considered in the IFRS Portfolio Value of the investment in arriving at a control premium adjustment.

Restriction on trading: To the extent that the ARC Fund is restricted from disposing of the investment for a period of time, this restriction would be considered in the IFRS Portfolio Value of the investment in arriving at a marketability discount adjustment.

3.1.2 Income approach methodology

When applying the income approach, the General Partner will consider the appropriateness of any sensitivity and/or scenario analyses.

3.1.3 Discounted cash flow methodology

The discounted cash flow method is used to derive the enterprise value of the investment using reasonable assumptions on the estimations of expected future post-taxation cash flows and the terminal value (free cash flows to the firm), and discounting to the present value by applying the appropriate risk adjusted rate that captures the risk inherent to the projections weighted average cost of capital (WACC). To arrive at an appropriate equity value, an adjustment for net indebtedness will be made. Where appropriate, an adjustment to the valuation would be made for surplus non-operating assets and liabilities in the investment.

In some valuations (for example, insurance and banking valuations), the use of free cash flow to equity might be preferred.

The length of period for which it would remain appropriate to use this valuation technique will depend on the specific circumstances of the investment and is subject to the judgement of the General Partner.

3.1.4 Market approach methodology

If a multiple approach is used, where appropriate, the General Partner would apply an Enterprise Value (EV)/earnings before interest, taxation, depreciation and amortisation (EBITDA) or price/earnings (P/E) multiple that is appropriate and reasonable, based on comparable companies and taking account of the size, risk profile and earnings prospects of the underlying company. In other cases, where appropriate, EV/EBITDA and price/book value may also be considered.

The General Partner as Fund Manager of the portfolio assets is contractually bound to perform fair valuation of the Portfolio Companies on a quarterly basis and provide quarterly accounts and valuation reports with respect thereto to the partners of the ARC Fund after approval by the Board of Directors of the General Partner on recommendation for such approval by the Audit and Risk Committee of the General Partner with the support, guidance and direction of the Investment Committee. Whilst the best judgement is used in determining the fair value of these investments, there are inherent limitations in any valuation technique involving securities of the type in which the ARC Fund invests. Therefore, the fair values presented herein may not be indicative of the amount which the ARC Fund could realise in a current transaction.

3.2 Control over the ARC Fund

The General Partner directs all the relevant activities of the ARC Fund. The Company does not have a currently exercisable right to remove the General Partner other than for a reasonable cause. Therefore, the Company does not control the ARC Fund. ARC Investments do not have the power to participate in the financial and operating policy decisions of the ARC Fund. Therefore ARC Investments does not have significant influence over the ARC Fund.

SEGMENTAL INFORMATION for the year ended 30 June 2018

Accounting policies and choices

The Company's operations consist of the investment in the ARC Fund. The Company has only one operating segment in terms of IFRS 8, Operating Segments. The chief operating decision-makers (CODMs), being the Board of Directors, evaluate the investment in the ARC Fund based on Intrinsic Portfolio Value and fair value movement in this Intrinsic Portfolio Value. This is disclosed in note 4 herein. Information of the ARC Fund is also reported to the CODMs for the purpose of assessing segment performance. This is specifically focused on the reporting to the Board of the Company by the General Partner in the ARC Fund through its Investment Committee under the adopted ARC Investments Limited Investment Guidelines.

Company context in application of accounting policy choices

Diversified Investments - these are the non-financial services investments acquired by the ARC Fund for purposes of demonstrated growth potential and the ability to deliver returns above the cost of capital of 16%. These are a combination of growth assets and businesses about to reach steady state. The key factor around the Diversified Investments' strategy is that the ARC Fund partners with industry leaders in the sub-segments to ensure the right level of monitoring and oversight is achieved with people with the requisite knowledge and experience of the relevant industry. As a consequence of this, the Diversified Investments' segment is further sub-segmented as follows:

- Telecommunications - The most significant asset in this cluster is Rain, and the Rain team is the partner on all telecommunications related investment decisions.
- Mining, Construction and Energy - Afrimat team, an experienced and highly effective team in the industry are the consultants on industry matters.
- Business Process Outsourcing - With the acquisition of Gemcap, the management team advises on the BPO cluster of investments for the ARC Fund.
- Agriculture - With the consolidation of Overberg Agri and Acorn Agri, this team will be looked to for Agri Industry insights leveraging Dr Johan van Zyl's experience.
- Property - Through the ARC Real Estate joint venture with the Buffet Group, property related matters are dealt with through that joint venture. Some other opportunities which have arisen include the joint venture with Barloworld and Atterbury which saw the implementation of an additional extension to the cluster.
- Other - Smaller investment opportunities are referred to the Fledge Capital team.

Diversified Financial Services, is the core industry experience of the executive management team within the ARC Fund. As such, the investment strategy is that of portfolio assets that demonstrate synergistic benefits to delivering on the greater UBI strategy of a Black-owned and controlled financial services company. To this end, the segment is organised into the following sub-segments:

- Insurance and Asset Management - A mix of small and large clients with diverse and significant client pools.
- Specialised Financial Services - These comprise unique investment opportunities with a disruptive edge in the current environment.
- Banking - TymeDigital Bank.

IFRS 8 has thus been applied on a look through basis of the ARC Fund in identifying the reportable segments, reporting the relevant segment information and the associated disclosure. There are no accounting policy choices afforded by IFRS 8 which have been elected by the Company that require further explanation.

A reconciliation between the IFRS Portfolio Values and the Intrinsic Portfolio Values is presented in notes 4.3 and 5.2.

Diversified Investments Portfolio analysis

Listed companies

Listed companies report as per the regulated reporting cycles and information on these companies is readily available. As such no additional information other than the information contained in the table on the previous page is disclosed.

Telecommunications

Rain

Rain is aiming to become a full-service Mobile Network Operator, focusing on data as a primary offering. The major assets constitute spectrum licenses, including an allocation in the 1 800 MHz band, along with the other major operators, as well as an allocation in the sought after 2 600 MHz band. Rain intends to build a dedicated national LTE Advanced network and infrastructure that will eventually facilitate an environment where open access to the internet becomes a reality in South Africa, with the best possible quality and internet speed, at affordable rates.

The Rain group consists of three main operating business units, namely Networks, Business-to-Business and Mobile.

The Network business unit builds and manages the Rain LTE Advanced network. The business unit is responsible for the capital expenditure to build a network of LTE sites and expand the network to enable nationwide connectivity for the Business to Business and Direct business units. It has a target of reaching 3 000 sites by 28 February 2019. By the end of July 2018, 2 100 sites were already in operation. In addition to the infrastructure, the network business unit is responsible for roaming agreements with other major telecommunication companies.

The Business-to-Business unit provides fixed wireless connectivity to end users. The main driver of this business is the number of subscribers, which has increased significantly. Rain; however, currently does not sell directly to users, and the business relationship is with intermediary Internet Service Providers (ISPs).

Rain Mobile represents Rain's mobile strategy which has been offered directly to the public since 6 June 2018. By 30 June some

4 860 Rain sim cards were activated without any marketing campaigns being undertaken. Media coverage and social media posts are the major drivers in expanding the Mobile customer base.

Overall, the growth prospects for Rain remain optimistic. Revenue growth has been encouraging and significant progress has been made to further improve on network performance and stability. The appointment of Willem Roos, former CEO of Outsurance, as CEO of Rain, is encouraging and strengthens confidence in the business going forward.

MetroFibre

MetroFibre is an internet infrastructure company that provides managed fibre optic broadband connectivity in South Africa. MetroFibre customers consist of service providers, resellers, residential and business properties. Consumers can take advantage of an array of services that are tailored to meet their business needs. The business is performing slightly ahead of targets. The main objective remains to expand its infrastructure roll-out.

Business Process Outsourcing

Bluespec

Bluespec is a holding company comprised of several specialist businesses which collectively aim to transform the motor repair and recovery industry to enable its customers to deliver more effective and efficient propositions to their clients in the most cost-effective manner. Business units include Incident Logistics (FirstGroup), Autobody Repair (Renew-it Group), Salvage (Auction Nation), Motor Retail (Daytona Group), Technology (DreamTec) and StraightThrough. Bluespec is 51% Black-owned with WIPHOLD Investment Trust and The ARC Fund as the B-BBEE partners.

Gemcap

Gemcap consists of Payprop SA, CSG Holdings Limited, Consumer Friend and Infoslips.

Payprop SA (Payprop) is a well-established, market leading residential letting outsourcing business that offers a unique end-to-end rental property management and compliance software platform. Payprop is an automated payment platform system that offers settlement functionality within the real-time banking environment, enabling automation of the entire letting transaction life cycle according to property-specific payment rules set up by clients. Payprop continues to gain market share and its customers range from small independent letting agencies to large rental agencies.

CSG Holdings Limited is a listed company and is a leading strategic outsource partner of choice for staffing solutions, facility management, security and related services in Southern Africa.

Consumer Friend operates a leading debt review technology platform with all major debt counsellors using it. Infoslips is a document outsourcing service.

Humanstate

Humanstate is a private technology services group based in the United Kingdom. It provides businesses and non-profit organisations with state-of the-art web-based software applications, integrated with on-demand payment processing based on their global transactional platform.

Humanstate is invested in Payprop UK and Payprop Canada. Payprop UK is in early development stage while the Canadian initiative is still in a start-up phase.

The results for the group's first three months are promising with continued income growth being reported.

Other

The other portfolio investments include:

Autoboys

Autoboys was established in 2011 as part of the Retail Division of Grandmark International. In 2017, the Parts and Glass Divisions were transferred into Autoboys Holdings, and the ARC Fund subscribed for a 51% interest. The company is a provider of aftermarket automotive parts and has a large market share of glass replacements for the insurance industry. The glass business is showing progress in line with expectations.

EOH

The business, including its subsidiaries, is the largest technology services company in Africa and has a wide range of solutions in Industry Consulting, IT Services, Software, IT Infrastructure, Industrial Technologies and Business Process Outsourcing. The business is listed on the JSE. The investment in EOH is held for sale and will be disposed of at an appropriate time.

Capital Appreciation

The business started as a Special Purpose Acquisition Company (SPAC) with the intention of acquiring viable assets and funds for

acquisitions held in escrow until ready for investment. The business is listed on the JSE.

Mining, Construction and Energy

Afrimat

Afrimat is a leading Black-empowered supplier to the resources, industrial minerals, mining, road, rail and construction sectors, with a national footprint across Southern Africa. The company specialises in open cast mining, industrial minerals and beneficiated mined products.

While some challenges were experienced in the financial year which negatively impacted the share price, we remain confident in the management of the entity and specifically the CEO.

Elandsfontein

Elandsfontein is a phosphate mine and processing plant on the West Coast. The initial project has been completed within budget and scheduled time frames but faces a number of challenges. During the pre-commissioning testing phase, the reverse flotation process was unable to consistently yield the required phosphate concentration of 32%. Consequently, commissioning was postponed, and additional ore body sampling and laboratory testing were conducted.

Designs have been completed to augment and reconfigure the processing plant. Construction will commence once the necessary funding for the capital expenditure has been procured. Due to the delayed commissioning the project has technically defaulted in terms of certain funding facilities amounting to US\$30 million. The provider of such facilities has agreed to waive the default and amend the facility on the basis that the additional capital is raised through the initial public offering planned for September 2018, as described below.

A listing on the Alternative Investment Market of the London Stock Exchange is scheduled for completion by end of September 2018. The ARC Fund will participate in the listing as an anchor investor taking up at least US\$10 million at IPO. It is expected that US\$32 to US\$40 million will be raised.

Recently the market phosphate price has increased significantly after a prolonged period of decline. This, in conjunction with the weaker Rand, augers well for the project once it starts commercial production which is scheduled for September 2019.

Last Mile Fund

The Last Mile Fund is a Black-owned fund incorporated to take advantage of the opportunities that exist in the broader resource space created and accelerated by B-BBEE legislation. To date two investments have been made. They include a coal mine and an investment in a crane business, the latter which is a supplier to the mining industry.

Other

The other portfolio investments include:

Global Asset Management

A JSE AltX listed holding company focused on asset-based financing and development of alternative energy businesses.

Agriculture

BKB

BKB is a leading agri-business in South Africa and is a mature, sound and diversified business.

The ARC Fund is in the process of disposing of its investment in BKB after expiry of the B-BBEE lock-in period in June 2018.

Acorn Agri & Food

Acorn Agri & Food is a long-term investor focusing on food and food processing, agricultural processing and the agricultural value chain. Acorn Agri & Food has the following investments: Lesotho Milling, Montagu Dried Fruits and Nuts, BKB, Grassroots and ACG Fruit, Overberg Agri Grain Division, Overberg Agri Retail, Overberg Mechanisation, Overberg Financial Services, Overberg Insurance, Overberg Irrigation, Loxton Irrigation, Agpack (supplier of packaging), Boltfast, Bontebok Limeworks and Bredasdorp Abattoir.

Acorn Agri and Overberg Agri entered into an Amalgamation Agreement whereby the two entities amalgamated their respective businesses into one combined entity. This has created a leading national agriculture and food investment company, with a shared culture and values, a focused and complementary investment portfolio, proven management and track record. It is aiming for a listing in the medium term. The ARC Fund's shareholding has diluted to 7.78% but the amalgamation has created significant value for the ARC Fund.

Other

The other portfolio investments include:

The RSA Group

RSA is a horizontally integrated sales organisation which offers a unique value proposition to the suppliers of fresh produce in the agricultural sector across all channels.

Subtropico

Subtropico operates in the food and agricultural sector, focusing mainly on the services segment in these industries. The Group consists of a fresh produce market agent, livestock agents, a packing facility, an equity interest in Farmwise, shareholding in Natsure, and a shareholding in KIK Landbou (an agri-business operating in the Northern Cape).

Property

Majik

Majik is a private equity structure which invests in commercial real estate in the United Kingdom. The investment is held through Majik Property Holdings Limited, which is a Limited Partner in the Squarestone Growth Limited Liability Partnership (Squarestone).

The business of Squarestone involves the acquisition, active management, holding, marketing and sale of secondary commercial real estate in the United Kingdom, with a predominant focus in Scotland and the North of England. The underlying property portfolio is performing well.

Val de Vie

Val de Vie is an established luxury residential estate located in Paarl. After a recent acquisition of Pearl Valley Golf Estate, Val de Vie has grown to become a mega estate. Paarl is fast becoming a new node separate from the Cape Town northern suburbs. The development is progressing as planned.

Other

The other portfolio investments include:

ARC Real Estate

Setso is a majority Black-owned unlisted real estate fund with a diversified portfolio comprising commercial and retail assets. The portfolio is spread across Gauteng and the Western Cape and covers 89 000 square metres of lettable space. The portfolio of properties is performing very well. During the year certain properties in the portfolio were disposed of at a significant profit.

Other

Fledge Capital

ARC partnered with Fledge Capital to execute smaller investments as there are significant investment opportunities which the ARC Fund is not able to execute due their size. Fledge provides funding solutions to private companies within a wide range of industries. Investments include Safari and Outdoor, WeBuyCars and Better Life.

ARC advanced R200 million to Fledge during the period under review in the form of a loan, which converted to equity when Competition Commission approval for the equity transaction was obtained. The Fund owns a 51% interest in Fledge Capital. The business had a satisfactory 2018 financial year with the net asset value increasing 24%.

Diversified Financial Services portfolio analysis

Listed companies

Listed companies report as per the regulated reporting cycles and information on these companies is readily available. As such no additional information other than the information contained in the table on the previous page is disclosed.

Diversified Financial Services

Insurance and Asset Management

Alexander Forbes

ARC PinHoldCo owns 10% of the operating company Alexander Forbes Limited and owns 8.9% in the listed company Alexander Forbes Group Holdings Limited. ARC PinHoldCo has the right to convert its shareholding in Alexander Forbes Limited for shares in Alexander Forbes Group Holdings Limited in two years' time. The conversion ratio per the agreement currently translate to shareholding of 8.8%. The effective combined shareholding in Alexander Forbes Group Limited on conversion is currently 16.9% (after considering the dilution impact of the flip up on current shareholding in the listed entity). The ARC Fund (through its 49.9% in ARC PinHoldCo) thus has an effective shareholding of 8.4%.

The share price has recently reacted adversely due to weaker business performance and the high level of attrition evidenced at the senior experienced management level.

ARC will continue to play an appropriate role in the investment in terms of strategy, acquisitions and people.

Afrocentric

Afrocentric is a Black-empowered investment holding company with an investment portfolio focused on providing services to the healthcare sector. Through its operating subsidiaries, the businesses provide health administration and health risk management solutions.

The business has delivered a solid operating result in a very challenging operating environment. It is maintaining its expansion programme and has a sound financial position.

ARC Health Group

ARC Health is a private investment company and wholly owned subsidiary of ARC PinHoldCo.

This business primarily consists of three key underlying businesses operating in various parts of the value chain servicing mainly the entry-level market.

Colourfield

Colourfield Liability Solutions is an asset management firm which specialises in Liability Driven Investment (LDI), goals-based investing, the management of inflation linked bonds and "smart beta" equity management solutions.

The core LDI business is stable and continues to perform well. Agreement has been reached with Alexander Forbes Investments to launch new products.

Other

The other portfolio investments include:

Santam Limited

ARC has direct ownership of 0.4% in Santam, which is listed.

Indwe Broker Services

Indwe is an independent South African general insurance broker that provides personal insurance, business insurance and specialist risk consulting services to private, commercial and corporate clients.

EBS International

EBS International provides hosted member administration and asset management solution platforms as well as providing technology, consulting, disaster recovery and business continuity services.

LifeCheq

The business is an independent financial advisory company (IFA) that targets the middle market in SA, being individuals with a monthly income between R15 000 and R60 000. This segment comprises approximately 3.2 million individuals that, whilst they may have high income, are not asset rich. The LifeCheq model aims to disrupt the traditional IFA model as it effectively combines robo-advice

with human interaction to reduce service costs.

Lima Mbeu

The business is a start-up investment management group focusing on asset management for institutional clients and it targets retirement funds in both the private and public-sector market segments.

InFund Solutions

The business is a start-up positioning itself for legislative changes in the employee benefits sector that will be introduced in March 2019. It will focus on providing pension funds with a retirement benefits counsellor (in terms of new regulations). It also focusses on comprehensive member communication and has a business offering including off-balance sheet solutions with regards to living annuity products.

Specialist financial services

Ooba

Ooba is primarily a mortgage originator with a strong life and general insurance business flowing from the origination. Ooba is one of the leading players that dominates the South African origination landscape.

The company is generally performing well despite subdued economic conditions. The value increase is attributable to both the origination and insurance businesses.

Other

The other portfolio investments include:

A2X

An alternative stock exchange for the secondary listing of companies. The business plan largely remains on track. Various initiatives are underway to develop revenue.

Constellation Capital

A research and brokering business in the South African equity and currency derivative market. Despite of recent market conditions, the business is performing well.

Edge Growth

A leading enterprise and supplier development firm that focuses on strategic partnerships between business and Small to Medium Enterprise (SME) development, commercial leadership and enterprise development strategy.

Alternative Prosperity

A majority Black-owned company that offers products and services in responsible investment, transformation and sustainability.

Bravura

Bravura offers astute and sound financial solutions underpinned by an independent and flexible approach as well as rigorous risk management practices.

Sinayo Securities

Sinayo Securities specialises in equity sales and trading of listed South African companies. It provides quality services to institutional investors. Sinayo Securities is majority owned by Black women and is a Level 1 B-BBEE company. The core business is performing well.

Anglo African Finance

The business provides structured rental solutions to a variety of businesses, with the core business being in the commercial asset finance product space.

Banking

TymeDigital

Following a decision by Commonwealth Bank of Australia to exit all of its emerging market operations (including SA) in June 2018, ARC PinHoldCo was approached to acquire the bank's 90% shareholding in TymeDigital. The transaction was announced on the JSE SENS on 8 August 2018 and is subject to regulatory approvals.

The investment is currently held at a net cost of R56 million in ARC PinHoldCo.

NOTES TO THE PROVISIONAL REVIEWED CONDENSED FINANCIAL RESULTS

for the year ended 30 June 2018

4. INVESTMENT IN THE ARC FUND AT FVTPL

Accounting policies and choices

The investment in the ARC Fund is a financial instrument at fair value through profit or loss and has been recognised and measured in accordance with the principles in IAS 39, Financial Instruments: Recognition and Measurement, with associated disclosures presented in accordance with IFRS 7, Financial Instruments Disclosure and IFRS 13, Fair Value Measurements. There were no accounting policy choices afforded by the aforementioned standards which need to be explained further.

Total portfolio		100.0%	8 204.9	4 502.4	-	8 147.4	4 473.3	-

(1) Exposure to Alexander Forbes is computed as the combined value of the Investment in Alexander Forbes Group Holdings Limited and Alexander Forbes Limited and amounts to 8.5%.

The valuations, which have been performed in accordance with the Company's valuation policy as disclosed under Key Areas of Judgement in Accounting Policies note 3, have given rise to the above Intrinsic Portfolio Value. The key valuation inputs are disclosed in note 4.4 below.

4.3 Intrinsic Net Asset Value (INAV(1))

The Directors monitor the performance of the investment in the ARC Fund based on the INAV. A reconciliation between IFRS Portfolio Value and Intrinsic Portfolio Value is presented below:

R million	Notes	Reviewed as at 30 June 2018	Reviewed at listing 7 September 2017	Audited as at 30 June 2017	Change
Reported IFRS Portfolio Value		8 204.9	4 502.4	-	3 702.5
Adjust for non-IFRS measures included in Intrinsic Portfolio Value(2):		(57.6)	(29.1)	-	(28.5)
30-day VWAP difference to spot price on listed portfolio assets		67.3	88.5	-	(21.3)
Deferred taxation		(5.5)	7.1	-	(12.6)
B-BBEE lock-in discount on listed assets		(119.3)	(115.7)	-	(3.6)
Other		-	(9.0)	-	9.0
Segment reported Intrinsic Portfolio Value		8 147.4	4 473.3	-	3 674.1
Liabilities in the ARC Fund(3)		(261.6)	-	-	(261.6)
Cash and other net assets in the ARC Fund		1 613.5	4 228.5	-	(2 615.0)
Cash and other net assets in the ARC Investments		28.5	32.4	-	(3.9)
INAV		9 527.8	8 734.2	-	793.4
NAV		9 610.2	8 763.3	-	846.0
Number of shares (million)	6.2.2	1 032.0	1 032.0	-	-
Diluted number of shares (million)	6.2.2	1 045.0	-	-	1 045.0
INAV per share (cents)		923	846	-	80
Diluted INAV per share (cents)		912	846	-	66
NAV per share (cents)		931	849	-	82
Diluted NAV per share (cents)		920	849	-	71
Gross Intrinsic Portfolio Value(4)		9 365.9	4 991.1	-	4 374.8
The following adjustments have been effected to the Gross Intrinsic Portfolio Value in arriving at the reported Intrinsic Portfolio Value.					
Total discounts recognised		(1 218.5)	(517.8)	-	(700.7)
Minority discounts(5)		(554.8)	(189.9)	-	(364.9)
Marketability discounts(6)		(738.8)	(401.4)	-	(337.4)
Control premium(7)		92.5	75.3	-	17.2
Deferred taxation on Diversified Financial Services Portfolio assets and other adjustments		(17.4)	(1.8)	-	(15.6)
Segment reported Intrinsic Portfolio Value		8 147.4	4 473.3	-	3 674.1

(1) Intrinsic Portfolio Value is defined under the definitions in Accounting Policies.

(2) The adjustments for Non-IFRS measures include:

- listed investments valued on a 30-day VWAP basis (compared to closing spot price), net of deferred taxation; and

- listed investments valued after recognising B-BBEE discounts (compared to closing spot price), net of deferred taxation.
- (3) Liabilities in the ARC Fund include the R134 million loan facility drawn down in ARC FinHoldCo pertaining to the TymeDigital equity investment and R84 million for deferred consideration payable mainly to RSA (R45 million) and Subtropico (R24 million).
- (4) Gross Intrinsic Portfolio Value is defined as the Intrinsic Portfolio Value before taking into account the control premium, marketability discount, minority discount and consequential deferred taxation.
- (5) These are adjustments for lack of control which are applied in the case of a minority interest valuation. In applying the minority discounts, the specific nature and characteristics of the interest being valued in relation to the facts and circumstances surrounding the valuation were considered. This analysis focused on the specific contractual rights arising from subscription and shareholders' agreements granted to the controlling shareholder(s) in the business including, inter alia:
 - election of directors;
 - ability to select management;
 - control over dividend policy;
 - ability to set corporate strategies;
 - ability to acquire or liquidate assets;
 - ability to affect future earnings; and
 - ability to acquire or liquidate the assets.
- (6) Marketability discounts, which include B-BBEE lock-in discounts, pertain to the lack of marketability associated with an interest in a privately held company where there is no established market for the active trade of the portfolio entity shares and listed portfolio interests where B-BBEE lock-ins are contractually agreed, and reflect the inability of the ARC Fund to sell its interest.
- (7) Control premium for purposes of Intrinsic Portfolio Value valuation is the inverse of minority discount and is applied up to 40%.

4.4 Valuation input disclosures for the ARC Fund at FVTPL

5. REALISATION AND DERECOGNITION

Accounting Policies and Choices

The Company applies the derecognition principle in IAS 39, Financial Instruments: Recognition and Measurement and derecognises a financial asset only when the contractual rights to the cash flows from the asset expire; or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, it recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, it continues to recognise the financial asset and also recognises a secured borrowing for the proceeds received.

Consistent with the Accounting Policy indicated in note 3, the Investment in the ARC Fund is a financial asset at fair value through profit or loss, all the fair value movements are recognised and included in profit or loss.

Company Context in Application of Accounting Policy Choices

Per the Dividend and Dividend Policy in note 7, the strategic objective and policy of the Company as it relates to dividend, is not to declare any dividends in the short- to medium-term as it is dependent on return of capital from the ARC Fund.

As such, the Company's partnership profit share in the reporting period is not as a result of a return of capital but rather the fair value movements of the Portfolio Companies in the ARC Fund and are therefore unrealised. The Company has thus adopted a policy whereby unrealised profits of this nature are transferred to the fair value reserve. In the event of a return of capital by the ARC Fund, these would be realised and accordingly transferred from the fair value reserve to retained earnings.

5.1 Fair value movements on the Investment in the ARC Fund at FVTPL

Reviewed for the year ended	Audited at incorporation
-----------------------------	--------------------------

R million		30 June 2018	30 June 2017
Income:		888.9	-

6.2 Earnings per share

R million	Notes	Reviewed for the year ended 30 June 2018	Audited at incorporation 30 June 2017
Basic earnings per ordinary share (cents)		81	(11 165 769)
Diluted earnings per ordinary share (cents)		79	(11 165 769)
Headline earnings per ordinary share (cents)		81	(11 165 769)
Diluted headline earnings per ordinary share (cents)		79	(11 165 769)
6.2.1 Reconciliation of reported earnings to headline earnings:			
Earnings/Headline earnings of the Company		674.5	(11.2)
There were no items that require adjustment from the reported earnings in terms of SAICA Circular 2/2015, Headline Earnings.			
6.2.2 Number of ordinary shares (million):			
Number of shares in issue at the end of the period	6.2.3	1 032.0	-
Weighted average number of shares (million)	6.2.3	836.9	-
Diluted weighted average number of shares (million)	6.2.3	849.4	-
Diluted number of shares (million)	6.2.3	1 045.0	-
6.2.3 On 7 September 2017, the Company issued 1 032 470 588 shares upon listing on the JSE initially through an asset-for-share transfer transaction with ARC Proprietary Limited (as discussed above in note 6.1) and thereafter a private placement including cornerstone investors Public Investment Corporation Limited (PIC), GIC Private Limited and Sanlam Private Wealth Proprietary Limited. As the issued number of shares at the beginning of the period was 100, the impact of the new issue has been weighted for the 296 days they were in issue at 30 June 2018 over the 365-day reporting period resulting in a weighted average number of shares of 836.9 million for the year.			
Diluted weighted average number of shares (million)	8	849.4	-
Diluted number of shares (million)	8	1 045.0	-

7. DIVIDENDS AND DIVIDEND POLICY

Company Context in Application of Accounting Policy Choices

Company strategic objective

The Company is a capital-raising and investment entity structured to offer its shareholders long-term capital appreciation through the growth in the NAV of its underlying investment in the ARC Fund. As such, ARC Investments does not currently intend to pay dividends on the ordinary shares but may choose to pay dividends, including special dividends, at some time in the future when it is appropriate to do so.

Dividends

The Company's ability to pay dividends is a function of the return of capital by the ARC Fund, which is not anticipated in the short-term and over which the Company has no direct control. Furthermore, the current intention of the General Partner is that cash raised by the ARC Fund through realisations and distributions received from Portfolio Companies will generally be utilised for new investment opportunities.

If the Company receives the proceeds of realisations or distributions by underlying Portfolio Companies from the ARC Fund and chooses to pay dividends, the Board anticipates declaring and paying a final dividend only. The Board may however, resolve to declare and pay interim dividends on the ordinary shares. The payment of a dividend will be subject to the Company's constitutional documents and applicable laws and regulations and the reasonably foreseeable obligations of the Company and will require the approval of the Board. The dividends that are envisaged would primarily be paid from distributions received by the ARC Fund from the Portfolio Companies and proceeds arising from the disposal of underlying investments by the ARC Fund, that are distributed to the Company as returns of capital by the ARC Fund.

Unclaimed dividend

All unclaimed dividends may be invested or otherwise made use of by the Directors for the benefit of the Company until claimed, provided that dividends unclaimed for a period of three years from the date they were declared may be forfeited for the benefit of the Company. There is no fixed date on which entitlement to dividends arises and the date of payment will be determined by the Board at the time of declaration, subject to the JSE Listings Requirements. There are no current arrangements under which future dividends are waived or agreed to be waived.

8. PERFORMANCE PARTICIPATION

Accounting Policies and Choices

The Performance Participation is an equity-settled share-based payment accounted for in accordance with the provisions of IFRS 2, Share-based Payments. The share-based payment expense is recognised in profit or loss and the reserve in the statement of changes in equity as a separate reserve.

Company Context in Application of Accounting Policy Choices

As detailed in note 6.1, the Company has issued 5 billion C shares to UBI through a subscription agreement signed on 14 August 2017 for purposes of the Performance Participation, which in accordance with their rights and terms, are convertible into ordinary shares at no consideration.

Grant date:	14 August 2017
Grant price:	R1 for the full 5 billion shares.
Performance hurdle:	10%
Participation percentage:	16%, provided the IPV NAV at the beginning of the measurement period not being less than the previous highest IPV NAV.
Performance period:	Each annual financial year of the company commencing 1 July and ending 30 June.(1)
Conversion date:	No more than 10 business days (excluding weekends) from the date the Board approves the calculation of the Performance Participation which will normally be the date of approval of the annual financial statements of the Company.
C shares conversion formula:	The number of C shares that will automatically convert into ordinary shares is determined by dividing the Performance Participation for the relevant annual measurement period by the INAV per ordinary share at the end of that measurement period. The conversion is calculated based on the growth in the IPV plus cash returns (of interest and dividends) on the IPV for the performance period percentage exceeding the performance hurdle rate of 10% per annum compounded annually at each financial year-end during

each performance period.

(1) The performance period in the year of listing commenced at listing date of 7 September 2017 and ended 30 June 2018.

R million	Reviewed for the year ended 30 June 2018	Audited at incorporation 30 June 2017
The annualised growth in Intrinsic Portfolio Value for the reporting period amounted to 12.4%, a Performance Participation amounting to R115.1 million has been recognised as a share-based payment expense with a corresponding recognition of a share-based payment reserve in equity. The consequential conversion of C shares into ordinary shares was estimated at 12 577 126 ordinary shares as at 30 June 2018, with a full dilutive impact on the weighted average number of shares for the period. The total diluted number of shares at year end is 1 045 047 713		
Performance Participation expense for the performance period	(115.1)	-

9. TAXATION

Accounting Policies and Choices

Normal income taxation and deferred taxation are recognised using the taxation rates and taxation laws that have been enacted or substantively enacted by the end of the reporting period in accordance with the recognition and measurement principles in IAS 12, Taxes.

Company Context in Application of Accounting Policy Choices

The company holds a Category one Global Business License, for the purpose of the Mauritian Financial Services Act 2007. It was registered in Mauritius as a private company limited by shares on 30 June 2017 and converted to a public Company on 2 August 2017. It is liable for income taxation at a rate of 15%. However, the company is entitled to a taxation credit equivalent to the higher of the actual foreign taxation incurred and 80% of the Mauritian taxation on its foreign source income, thus having a standard taxation rate of 3%.

The foregoing is based on current interpretation and practice and is subject to any future changes in Mauritian taxation laws.

R million	Reviewed for the year ended 30 June 2018	Audited at incorporation 30 June 2017
No provision has been made for taxation as the Company has an estimated taxation loss carried forward amounting to R17.4 million (at 30 June 2017: R11.2 million). Mauritian taxation regulations permit the carry forward of unused taxation losses for a maximum period of five years from the date they arose. The accumulated taxation losses are available for set-off against future taxable income as follows:		
Arising in FY 2018, carry forward up to 2023 financial year	(6.2)	(11.2)
Arising in FY 2017, carry forward up to 2022 financial year		(11.2)
Reconciliation of loss before income taxation:		
Profit before taxation	674.5	(11.2)
Taxation at a statutory effective rate of 3% for Category One Global Business License after foreign taxation credit	20.2	(0.3)
Taxation consequences in the year:		
Non-deductible expenditure	3.5	-
Performance Participation expense	3.5	-
Other (incorporation fees and realised foreign exchange losses)(1)	-	-
Non-taxable income	(23.9)	-
Fair value movements on the investment in the ARC Fund at FVTPL	(23.8)	-
Interest earned on local bank account	(0.1)	-
Deferred taxation asset not raised	0.2	0.3
Taxation expense for the year	-	-

(1) The amount is less than R1 million and is rounded to Rnil.

R million	Reviewed for the year ended 30 June 2018	Audited at incorporation 30 June 2017
A deferred taxation asset amounting to R0.5 million has not been raised as the ARC Fund is not expected to declare partner profit distributions in the foreseeable future, thus the Company will not have taxable income against which the deferred taxation asset can be utilised.		
Reconciliation of taxation rate:	%	%
Mauritian standard income taxation rate for a company with a Category one Global Business License	15.0	15.0
Foreign taxation credit	(12.0)	(12.0)
Non-deductible expenditure	0.5	-
Non-taxable income	(3.5)	-
Deferred taxation asset not raised	-	(3.0)
Effective taxation rate	-	-

10. RECONCILIATION OF CASH UTILISED IN OPERATIONS BEFORE

INVESTMENT ACTIVITIES

R million	Reviewed for the year ended 30 June 2018	Audited at incorporation 30 June 2017
Profit/(loss) before taxation	674.5	(11.2)
Adjustment for non-cash items	(679.3)	-
Fair value movements on the investment in the ARC Fund at FVTPL	5.1 (794.7)	-
Performance Participation expense	8 115.1	-
Unrealised foreign exchange gains/(losses)	0.3	-
Working capital movements	(11.2)	11.2
Increase in trade and other receivables	(0.9)	-
Decrease in trade and other payables	(10.3)	11.2
Cash utilised in operations before investment activities	(16.0)	-

11. FINANCIAL INSTRUMENTS

11.1 Risk management

The Company's exposure to market risks is predominantly through its investment in the ARC Fund. To this end, the Board

of the General Partner, through its Investment Committee agrees and reviews the ARC Fund policies for managing all market risks that the financial instruments within the ARC Fund are exposed to. The Directors of the Company manage the Company's exposure to market risks as indicated below.

11.1.1 Equity price risk

Most of the Company's interest in the ARC Fund is deployed in equity instruments (91% at 30 June 2018; 88% as at 7 September 2017), the Company is thus exposed to equity price risk through the valuation of the underlying Portfolio Investments held by the ARC Fund. The fair value of these investments is derived through the valuations disclosed in note 4.4. The underlying Portfolio Companies are valued quarterly and the Board has access to the valuation information to monitor and review the fair value of the investments and, where impairment indicators have been identified, consider any possible impairment adjustments.

	Reviewed for the year ended 30 June 2018	Unaudited at listing 7 September 2017
R million		
Change in portfolio equity prices		
+5%	7 855.8	4 160.2
Equity component being 91% (7 Sept 2017: 88%) of Reported IFRS Portfolio Value	7 418.7	3 962.1
- 5%	7 107.7	3 764.0

11.1.2 Interest rate risk

The Company is mainly exposed to interest rate risk through its investment in the ARC Fund which has interest bearing loan assets and cash of R2 200 million (as at 7 September 2017: R4 745 million) in its portfolio.

Change in portfolio loan receivable interest rates - annualised + 100 basis points	22	48
---	----	----

11.1.3 Credit risk

The cash and cash equivalents of the Company and the ARC Fund balance are held with the four largest banks in South Africa.

The Company is exposed to credit risk through the ARC Fund Portfolio and the counter parties of the financial instruments in the portfolio. The diversity of the portfolio mitigates concentration of credit risk. Rigorous assessments, adherence by the Fund Manager to the Investment Guidelines and reviews and due diligence with each investment decision made by the General Partner Investment Committee, which consists of strong and well experienced members, ensure that the Company effectively manages exposure to credit risk. On a quarterly basis, the Board receives detailed reports and updates from the Fund Manager to enable it to monitor the performance of the underlying investments.

11.1.4 Currency risk

The Company's exposure to currency risk is primarily through its Investment in the ARC Fund. The portfolio interests of the ARC Fund are predominantly denominated in ZAR with 4.6% denominated in GBP. The exposure to currency risk is thus low; however, the Board continuously monitors the exposure to currency risk through the Investment Committee of the Fund Manager.

11.1.5 Liquidity risk

The Company is exposed to the risk relating to the payment of trade and other payables which at the reporting date were not significant. At listing the company retained sufficient funds from the listing proceeds for working capital requirements. The adequacy of the working capital of the Company is reviewed by the Board bi-annually.

12. COMMITMENTS

As at the year ended 30 June 2018, the Company did not have any commitments. The commitments in the ARC Fund were as follows:

Contracted	R million
Contingent consideration on existing portfolio investments(1)	140.3
Other contractual commitments arising from signed investment agreements(2)	850.2
Total contracted	990.5

(1) R94.0 million of the R140.3 million contingent consideration has been recognised as a liability in the year end results as the portfolio entities concerned had met the required hurdles.

(2) The Investment Committee of the ARC Fund has approved, and management have concluded contractual commitments to investments of R400.0 million where the funds relating thereto are yet to be paid. The most significant relate to investments in the Barloworld project and into Rand Mutual Assurance which were announced on SENS during the financial year.

Approved not yet contracted	R million
Other contractual commitments arising from signed memoranda of understanding (MOU)(3)	1 153.8
Total approved not yet contracted	1 153.8
Total commitments	2 109.3

(3) A number of prospective investments approved by the Investment Committee of the ARC Fund are currently under negotiation and still subject to signed contracts.

The aging profile of commitments in accordance with the financial year-ends of the Company are as follows:

	2019	2020	2021	Total contracted	Total approved	Total commitments
Contracted	260.3	140.0	115.0	515.3	-	515.3
Approved	1 026.0	568.0	-	-	1 594.0	1 594.0
Total	1 286.3	707.9	115.0	515.3	1 594.0	2 109.3

The cash and cash equivalents of the ARC Fund at 30 June 2018 amounted to R1.6 billion and would be utilised to fund the commitments in the 2019 financial year.

13. RELATED PARTY DISCLOSURES

Accounting Policies and Choices

Related party transactions are transfers of resources, services or obligations between the Company and a related party (as identified below), regardless of whether a price is charged or not. They include commitments to do something if a particular event occurs (or does not occur) in the future and executory contracts (recognised or unrecognised). The Company has complied with the provisions of IAS 24, Related Party Transactions, in identifying, quantifying and disclosing the information below.

Company Context in Application of Accounting Policy Choices

The Company has identified the following related party relationships and related transactional terms which are relevant to the current

year financial results:

Name	Relationship	Nature of transaction/terms
Companies:		
- UBI	- Ultimate parent	- None.
- ARC	- Holder of the C shares for the Performance Participation	- Issue of the C shares (note 6.1).
	- Controlling shareholder	- The Performance Participation (note 8).
	- Holder of the B share	- Asset-for-share transaction prior to listing (note 6.1).
	- Incorporation loan	- Issue of the B share (note 6.1).
		- Loan advanced per the loan agreement signed on 14 August 2017 for the payment of incorporation and listing related expenses incurred prior to the listing date and effective 18 August 2017 for an amount of up to R60.0 million. The loan is unsecured, bore no interest and repayments were to be financed from the listing proceeds.
- The ARC Fund	- South African en-commandite Partnership at a partnership interest of 99.95%.	- Contribution of Portfolio Assets (note 4).
		- Cash capital contribution (note 4).
- General Partner	- General Partner in the ARC Fund	- 0.05% in the ARC Fund Capital and partnership profit share.
		- Fund management fees.
Key management personnel:		
- MC Olivier	- Non-executive director and Chairman	- Directors fees.
- T Lo Seen Chong	- Non-executive director	- Directors fees.
- C Msipha	- Non-executive director	- Directors fees.
- R Mokate	- Non-executive director	- Directors fees.
- NB Radebe	- Non-executive director	- Rnil.
- K Bodenstein	- Chief Financial Officer	- Executive salary.

Transactions with related parties in the year under review are as follows:

14. SUBSEQUENT EVENTS

Other than the investment activities post the reporting period detailed below, the Company had no other subsequent events that required adjustment to or disclosure in the reported results.

The following investments were concluded in the ARC Fund post the reporting period:

Acquisition of TymeDigital

On 8 August 2018, the company announced that its controlling shareholder, ARC has reached an agreement to acquire, through ARC's 50.1% held subsidiary, ARC FinHoldCo, 90% of TymeDigital by Commonwealth Bank SA, after which FinHoldCo will become the 100% owner. The acquisition is subject to approval by the regulatory authorities, including that of the Prudential Authority of the South African Reserve Bank. The ARC Fund holds 49.9% of FinHoldCo.

15. APPLICATION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS (IFRS)

New standards adopted in the current reporting period:

The following new standards became effective for the company in the current reporting period and have been adopted:

Standard, amendment	Effective for financial periods beginning on

or interpretation	Summary of expected impact	or after
Amendment to IAS 12 - Income taxes	<p>Summary of amendment</p> <p>The amendments were issued to clarify the existing guidance under IAS 12 around requirements for recognising deferred taxation assets on unrealised losses. The amendments clarify the accounting for deferred taxation where an asset is measured at fair value and that fair value is below the asset's taxation base. They also clarify certain other aspects of accounting for deferred taxation assets. These amendments thus do not change the underlying principles for the recognition of deferred taxation assets.</p> <p>Summary impact on the Company</p> <p>The Company has applied the existing guidance, the adoption thereof has not had an adjusting impact on the financial results of the Company.</p>	1 January 2017
Amendment to IAS 7 - Cash Flow Statements	<p>Summary of amendment</p> <p>In January 2016, the IASB issued an amendment to IAS 7 introducing an additional disclosure that will enable users of the financial statements to evaluate changes in liabilities arising from financing activities. The amendment responds to requests from investors for information that helps them better understand changes in an entity's debt.</p>	1 January 2017
New standards in issue but not yet effective or early adopted:		
The following standard has been published and is deemed relevant to the Company but is not yet effective and has also not been early adopted:		

Standard, amendment or interpretation	Summary of expected impact	Effective for financial periods beginning on or after
IFRS 9 - Financial Instruments	<p>Summary of amendment</p> <p>This standard replaces the guidance in IAS 39. It includes requirements on the classification and measurement of financial assets and liabilities; it also includes an expected credit losses model that replaces the current incurred loss impairment model.</p> <p>Summary impact on the Company</p> <p>The Directors anticipate that these amendments will be applied in the financial statements for the annual period beginning 1 July 2018. The Directors have evaluated the business model of the company under the provisions and guiding principles of IFRS 9, specifically, to its main financial instrument - the investment in the ARC Fund. Since the investment in the fund is a fair value through profit and loss investment which is managed on its intrinsic fair value performance, the adoption of the new standard will present no change in the basis of recognition and measurement of the financial instruments of the company. It is thus expected to have minimal impact.</p>	1 January 2018

I - VALUATION INPUTS BY PORTFOLIO ENTITY
for the year ended 30 June 2018

In the tables that follow we summarise the disclosure of the valuation inputs of the unlisted portfolio entities that evidenced a fair value adjustment at 30 June 2018.
